

# Instrumentation Tripod

Data Bulletin

Catalog Number: 88019

The instrumentation tripod is designed to provide 8 to 10 feet of stable, secure support for your meteorological sensors.

The tripod is constructed from welded aluminum and anodized for appearance and longevity. The 15-pound tripod can easily support up to 60 pounds of equipment. The Tiedown Kit allows for additional security in high-wind areas. A Tripod Tote is available for storage or portable applications.

Set up takes less than five minutes. Simply insert the legs into the main body and install the stainless steel retainer pins. Extend the mast to the desired height and insert another retainer pin. Install the guy wires and you're ready to go!

## Specifications

Capacity: Supports up to 60 lbs.

Mast Outside Diameter: 1"

Footprint Diameter: 48"

Shipping Weight: 17lbs

Shipping Box Dimensions: 70" x 8" x 8"
